**What We Inherit**

We are not to blame for. We cannot be held responsible for the dispositions and tendencies which we derive from our ancestors, nor are we responsible for the germs of disease which may manifest themselves in our blood as a heritage from former generations. But we are responsible if we allow these germs to develop into serious diseases which will impair our usefulness and destroy our happiness. We are responsible if we transmit to our descendants the disease germs which it is possible for us to eradicate by the use of Hood's Sarsaparilla.

**Smiles Irradiate the Countenance**

When those atrocious bodily troubles, chills and fever, dyspepsia, kidney or rheumatic disorders, yield, as they invariably do, to the benign action of Hostetter's Stomach Bitters, a remedy of comprehensive use, pure in composition, unobjectionable to a delicate palate, and thorough in effects. Sick headache, loss of appetite, flesh and sleep, paucity, heartburn, are among the physical annoyances obviated by the Bitters. They are in the nature of signals of distress displayed by a disordered stomach, liver and bowels, and disappear with the cause that produced them. But these signals should be heeded at once. Then the welcome look of chronic ill health will speedily disappear, and vigor and comfort restore a cheerful aspect to the face. That faithful index to the condition of the system never fails to wear a look of sunshine when the Bitters is used to dispel the cloud.

**GRECO-TURKISH ARMISTICE.**

Stipulations of the Agreement Finally Completed Yesterday.

Constantinople, May 21.—The armistice concluded yesterday is general, and includes the land and sea forces of both combatants. The ambassadors of the powers met yesterday afternoon to consider the terms of peace.

London, May 21.—The armistice agreement stipulates that a mixed commission of officers of superior rank shall establish a neutral zone between the two armies, and that no advance on either flank shall be permitted. It is understood that Turkey wants the commission to be constituted of the foreign military attaches with the two armies.

An Item of \$50,000 That a New York Banker is Looking After.

Indianapolis, May 25.—"Johnny" Johnson, wrecker of the Logansport bank, who is in jail in this city, was asked if he had been preparing for years for the failure and if he had sent away large sums of money, as alleged. "Whatever the facts are," Johnson replied, "will appear when I am taken before Judge Isaker. The facts are simple and incontestable. Whatever else may be said I can say that never in my life have I had other than honest motives and an honest heart."

"It is true I have made mistakes. We all make them. I had no dishonest purpose, and now that I have done one wrong is it not better for me to accept punishment and sentence of court, bear up and try to right this wrong? Should not my friends lend me strength by their sympathy? I think I am doing right in following the course of pleading guilty and taking punishment." Johnson's wife asked permission to occupy a cell in jail with him. This was denied her. The federal grand jury will indict Johnson today, and the probabilities are he will plead guilty and be sent to the Columbus penitentiary before the week ends.

Both represent the work of the church on the Pacific coast, but the rank and file of the commissioners rallied to the standard banner of home missions. The politicians of the assembly were treated to a great surprise, and the election of Dr. Jackson by a vote of 313 to 238 was characterized by many delegates as a "breaking of the machine." It was a victory for the more liberal branch of the church, and was in line with the election of Dr. Withrow last year.

**A SIMPLE TIRE REPAIR.**

Punctures in the well known Morgan & Wright tire are mended about as easily as a man would close a hole in his finger with a bit of coat plaster. Inside of the inner tube of the tire lies a long strip of patching rubber, like this:

By injecting M. & W. quick-repair cement through the puncture into this inner tube, and then pressing down on the tire with the thumb, like this:

the repair strip inside is picked up by the cement, thus closing the puncture, like this:

Very simple, but—now every rider should remember these two "buts," or he will fail:

Before injecting cement, pump up the tire. If you don't, the inner tube will be flabby, like this:

and the cement will not get inside of it, where the repair strip lies.

When you have a puncture, get right off. Riding a tire flat, when it has a tack or nail in it, may damage it considerably.
